

Fund Flow Weekly

7 Jun 2022

Demand keeps increasing across VFMVN Diamond ETF

Vietnam foreign flow

Foreign demand came back. Net buy value was USD93mn.

Particularly, foreign demand ticked up across Financials and IT sector, mainly driven by the solid buying activity on CTG, HDB, MIG, and FPT. Besides, Consumer Staples and Real Estate also turned around to be net bought thanks to large buy orders on DGC, MSN, VHM, and NLG. On the contrary, selling activity spread to Utilities and Consumer Discretionary due to large sell orders on GAS and PNJ.

South East Asia ETF flow

Last week, inflow across SEA skyrocketed. Net inflow was USD145mn, the highest figure since 2014. The massive flow of money continued to be mainly driven by the strong money inflow across Vietnam. Notably, demand has come back to Indonesia via major ETFs. Besides, Philippines and Singapore also attracted the positive flow of money.

Money inflow across Vietnam remained at high level. Net inflow was USD85mn. The positive flow of money was mainly driven by the massive demand on VFMVN Diamond which attracted VND71mn, the all-time high figure. Besides, the flow of money continued to spread to Fubon FTSE Vietnam. However, the inflow/outflow across other major ETFs was not significant.
