Cash flows into Construction

Vietnam stock markets kept going up after the People's Bank of China decided to cut interest rates on one-year loans to 2.95% from 3.15% and inject USD14bn into the financial system to fight negative impact by COVID-19.

At the close, the VN-Index jumped 1.28% to close at 777.2 pts. Trading volume increased to 302 million shares or VND4,583bn. The market breadth was positive, with 233 advancers vs 87 decliners, showing optimistic sentiment. Moreover, the HNX-Index rose by 1.10% at 108.3 pts.

Banking was the market leader due to CTG (+3.4%), VCB (+1.4%), BID (+2.2%), HDB (+3.2%), TCB (+2.3%), MBB (+2.8%), STB (+5.9%), and VPB (+2.1%). In addition, Construction tickers outperformed the benchmark index as HBC and CTD limiting up.

Besides, cash flowed into Material and Brokerage namely SSI (\pm 1.1%), HCM (\pm 3.1%), HSG (\pm 7.0%), HPG (\pm 0.8%), and NKG (\pm 2.2%). Meanwhile, some constituents of the VN30-Index surged more than 1% such as BVH (\pm 5.1%), FPT (\pm 1.2%), MWG (\pm 2.6%), PNJ (\pm 2.9%), REE (\pm 1.8%), ROS (\pm 4.1%), and SAB (\pm 6.6%).

In contrast, selling pressure pushed Energy stocks down driven by GAS (-0.6%), PVT (-0.8%), PVD (-2.4%), and PVS (-3.3%).

Foreign investors continued to sell sharply with a net value of VND185bn on HSX. VIC was sold the most with a net value of VND94bn. On the buy side, CTG, MSN, and STB were at the top of the list.

The short-term uptrend is dominant as the cash flow into the market. Therefore, traders can increase long positions and focus on leading stocks at these sessions.

Breaking news

Deteriorating economic conditions weights on the IMF's updated world economic outlook (WEO). It seems that all the world is now looking for the answer to the economic damage of the pandemic. Gita Gopinath, the chief economist of the International Monetary Fund, said "the coronavirus pandemic is pushing the global economy into its deepest recession in a century, cutting world output by three percent this year, and the crisis could get worse". In other words, this crisis could slash more than USD9 trillion from the world economy, more than 10% of the 2019 world GDP. Despite massive financial support measures recently taken by the U.S., EU, Japan, the UK, etc., the world output is still expected to plunge by 3.0% in 2020 from the previous projection of 3.3% in the January WEO report. (International Monetary Fund)

SCIC to increase hold in VNM. SCIC (SIC) registered to buy 250,000 shares of Vinamilk (HOSE: VNM) under financial investment purpose. The transaction is expected to be conducted from 17 Apr to 15 May 2020. (ndh.vn)
