Market commentary & News

Market commentary

Aim back to resistance 880

Hieu Tran
hieu.tm@kisvn.vn

Vietnam stock markets posted the tenth winning session yesterday since the COVID-19 outbreak in Danang late last month as the number of new confirmed case continued to decrease. At the close, the VNIndex increased 0.96% to 855.05. Liquidity improved slightly to 256 million shares worth VND4,448bn.

Telecommunication (+6.7%), Health Care (+5.1%), and Retailing (+3.0%) are the best performers.

Foreigners were net sellers for the fifth session in a row with a net value of VND130bn, focusing on property-related stocks such as VHM (VND109bn), DXG (VND22bn), VRE (VND10bn), and HBC (VND9bn). On the other side, this group bought VNM (VND45bn) and HPG (VND12bn).

Given the current upward momentum, we expect the VNIndex to continue to climb higher in the coming sessions and retest resistance 880.

Breaking news

- ▶ Vietnam: Domestic petroleum prices remain stable in the mid-August adjustment

Following the global crude prices remaining stable, on Wednesday 12th August, the Ministry of Industry and Trade announced the latest adjustment for the domestic gasoline prices. Accordingly, E5RON92's price remained unchanged from its previous level, selling at VND14.409 per liter, while the RON95-III increased but insignificantly to VND14.922 per liter from its previous level of 14.973 per liter. As a result, it will certainly ease the upward pressure on the traffic price in August. (Ministry of Industry and Trade).
