Energy in a spotlight

Hieu Tran
hieu.ttm@kisvn.vn

The Vietnam stock market maintained its uptrend thanks to high demand on Energy tickers, such as GAS (+3.7%), PVD (+3.3%), PVT (+2.3%) PVS (+5.8%), and BSR (+2.5%). High oil prices pushed the sector up.

At the close, the VNIndex gained 1.61% to close at 1,174 pts. Meanwhile, trading volume recorded to 591 million shares or VND14,949bn.

Foreign investors continued to buy with a net value of VND617bn on HSX. They purchased HPG, FUEVFN, and VHM the most with a net value of VND220bn, VND111bn, and VND109bn, respectively.

Besides, Real Estate outperformed the broad market thanks to VIC (+1.9%), VRE (+3.3%), VHM (+2.2%), NLG (+5.7%), TCH (+6.1%), and KDH (+2.4%).

Some constituents of the VN30Index jumped more than 2%, such as MSN (+3.4%), BID (+3.1%), and VCB (+2.0%).

In contrast, SSI (-0.7%), STB (-0.8%), HSG (-2.2%), NKG (-1.3%), and DXG (-1.0%) closed in red territory.

In the short term, the uptrend is confirmed as the index closes above all significant trending indicators. However, the 1,200-pts threshold is the strong resistance. Therefore, traders should increase the long position if the index closed above this threshold.

Breaking news

Tuan Doan

► Crude oil price: Price surges to a 1-year peak under a supply shortage

According to Bloomberg information, a recent disruption in the U.S. largest oil field, the Permian Basin in Midland, Texas, due to a cold blast causes U.S. oil production to slump by a record 40% or about 3 to 4 million barrels per day. The supply shortage has helped push oil prices to their highest level since before the COVID-19 pandemic, in which the Brent futures price has risen near to USD65 per barrel in the trading session yesterday. (Bloomberg)

- **Guide to KIS Vietnam Securities Corp. stock ratings based on 12-month forward performance**
