

The flow of money starts to diverge

Vietnam foreign flow

Last week, buying activities kept overwhelming. Net buy value recorded at USD90mn, up 50% WoW.

Breaking down by sectors, Real Estate continued to attract the most foreign demand across the market thanks to large buy orders on VHM, VIC, and KBC, fading the sharp selling activities on NVL and KDH. Besides, foreign buying activities also focused on Consumer Staples and Materials, driven by HPG, VNM, and MSN. On the contrary, Financials and Utilities were sold the most. Foreign selling activities were mainly absorbed by HCM, CTG, STB, POW, and GAS. Energy also ended up to be net sold due to the high divestment away from PLX.

South East Asia ETF flow

The flow of money across SEA maintained at positive level. Net inflow recorded at USD45mn. To be specific, the surge of inflow was mainly driven by the positive flow of money across Vietnam, Singapore, and Indonesia. Especially, money inflow across Indonesia reached 3-month high. In contrast, Malaysia, Thailand, and Philippines experienced the outflow last week.

Vietnam has continued to maintain its role as a leader of SEA. Net inflow recorded at USD40mn, 2 times higher than the previous week. Of which, VFMVN Diamond led the flow of money which attracted the total of USD32mn last week.
