## Market commentary & News

### Market commentary

#### Retest 1,500-pts threshold again

Hieu Tran  
hieu.tm@kisvn.vn

The stock market reversed to retest 1,500 pts zone last Friday due to selling pressure on large-cap stocks.

At the close, the VNIndex lost 0.21% to close at 1,504 pts. Meanwhile, the trading volume was 670 million shares or VND21,991bn.

Foreign investors continued to net buy with a net value of VND101bn on HSX. They purchased KBC, MSN, and DXG the most with net values of VND48bn, VND42bn, and VND35bn, respectively.

Banking was the worst sector due to ACB (-1.31%), BID (-2.83%), LBP (-2.88%), MBB (-1.66%), STB (-1.62%), TPB (-0.85%), and VPB (-1.10%).

Some constituents of the VN30Index slid more than 1%, such as VRE (-2.47%), KDH (-1.64%), GAS (-1.43%), VHM (-1.36%), GVR (-1.18%), and VIC (-1.08%).

In contrast, cash flowed into Material and Brokerage, namely HPG (+1.18%), HSG (+1.78%), NKG (+4.02%), HCM (+1.89%), SSI (+0.44%), VCI (+2.37%), and VND (+1.41%).

The VNIndex move around the 1,500-pts threshold with low liquidity, implying the cautious market sentiment. Besides, the downside risk is still intact. Therefore, traders should be careful and stay on the sidelines until the next bullish signals.

## Macro & strategy

### Chart of the day

#### Bullish momentum is improved

Dang Le  
Dang.lh@kisvn.vn

##### ► Market performance

VNIndex has formed the short-term demand zone at 1,470 pts area, implying the improvement of bullish momentum. However, breakout is needed to validate the bullish swing.

##### ► Chart: Bullish momentum is improved

The VNIndex closed above major MAs, implying the increase of bullish momentum.

The medium-term uptrend is still active thanks to the upward sloping MA200 and MA50.

The 1,400-1,420 pts zone acts as the significant demand zone for the upward swing. On the upside, 1,550 pts area is the barrier for the upward resumption phase. Notably, 1,470 pts zone is the benchmark for the current bullish swing.

→ The Index is expected to retest the all-time high this week.

##### ► Technical strategy: Hold the positions

Bullish momentum has been improved as well as the medium-term trend is still supported. In this case, investors should continue to hold the current positions on leading stocks and position size should be closed by half when the 1,470 pts zone is pierced.
