GMP-EU standard race

- After the Circular 15/2019/TT-BYT of the Ministry of Health took effect in 2019, domestic pharmaceutical companies started racing to build a pharmaceutical EU-GMP standard factory.
- The Circular required that in Group 1, imported drugs may not be allowed to bid if domestically-produced drugs could meet EU-GMP standards (or equivalent standards such as Japan-GMP, PIC/s-GMP, and US-GMP) for the same main active ingredients, and if the company's products can fully meet the needs.
- Currently, the company is participating in bidding in the drug Group 3 to 5. The company expects the cancer drug treatment plant in Nhon Hoi could complete the EU-GMP approval standard in Jun 2023F, which will help the company join the cancer drugs bid in the public hospitals (for high-quality drug segment).
