# Vinamilk (VNM)

## AM Briefing: Hope is on the rise

- On November 3, we joined VNM's analyst meeting which featured its 3Q22 business updates and shed some light on the 4Q22F outlook.

### Material price rally weighed continually on earnings in 3Q22

- VNM released its 3Q22 results, including revenue of VND16.1tn (-0.7% yoy) and NPAT-MI of VND2.3tn (-21.4% yoy). For 9M22, revenue sustained VND44.9tn (-0.5% yoy) but NPAT-MI declined to VND6.6tn (-20.3% yoy), fulfilling 68% and 60% of our full-year forecasts.
- VNM posted domestic market revenue of VND13.8tn (0% yoy) contributed by the parent's domestic revenue of VND12.4tn (+0% yoy) and MCM's revenue of VND832bn (+4.7% yoy). And management expects domestic sales to grow single-digit yoy growth in 4Q22F.
- The domestic revenue stayed flattish yoy despite a high base in 3Q21 and went up 7.7% qoq on the back of market share expansion by restructuring the distribution chain in 3Q22.
- Meanwhile, export revenue dropped by 6.1% yoy to VND2.3tn in 3Q22 due to weak demand in Middle East markets amid inflation concerns and transportation cost hikes. In contrast, the revenue of overseas subsidiaries in the US and Cambodia grew remarkably by 26% yoy to VND1.1tn.

### Gross margin could be improved in 4Q22F

- The 3Q22 gross margin (GM) narrowed by 3.4p% yoy and 1.2%p qoq to 39.5% because VNM hedged material input prices at high prices. The future global milk powder prices slumped strongly by over 30% vs the peak in 2Q22 and the management expects to benefit and improve the GM from 4Q22F.
- Per management, foreign exchange loss affected slightly earnings due to VNM's trade deficit, and the company's USD-denomination loan value of USD400mn as of end-3Q22.
