

Strong divested in KIM GROWTH VN30

Vietnam foreign flow

Foreign investors intensified net selling in the previous week. The net sell value was USD55mn.

Particularly, foreign selling activity spread to the Real Estate and Energy sector due to large sell orders on VIC and VHM. Besides, selling pressure also made negative effects on Utilities. In contrast, demand focused on Financials and Cons Discretionary the most, thanks to the solid buying activity on MSB, CTG, SHB, and PNJ.

South East Asia ETF flow

Outflow came back at SEA, recorded at USD9mn. Accordingly, Vietnam's major ETFs were divested strongly while selling pressure in Singapore rose in the previous week. Besides, demand in Malaysia decreased significantly, compared with the last week. In contrast, inflow across Thailand's and Indonesia's major ETFs was intensified in the previous week and recorded at a high level.

Outflow on Vietnam's ETFs came back, recorded at USD19mn. Specifically, selling activities focused mainly on KIM GROWTH VN30 ETF (USD16.1mn), FUBON FTSE VIETNAM ETF (USD6.5mn), and X FTSE VIETNAM SWAP (USD6.2mn). Which, KIM GROWTH VN30 ETF was the main notable focus when it was divested after 2 consecutive weeks of positive inflow. In contrast, inflow had a good situation among VFMVN30 ETF FUND (USD5.8mn), VFMVN DIAMOND ETF (USD3.3mn), and VANECK VIETNAM ETF (USD1.5mn). Other major ETFs such as SSIAM VNX50 ETF, VINACAPITAL VN100 ETF, SSIAM VN30 ETF, and MAFM VN30 ETF had no significant movements in the previous week. In general, outflow across Vietnam's ETF came back strongly while demand also experienced to increase in other major ETFs. In this case, selling pressure may present the next time, however, an expectation that demand will still maintain on some major ETFs in the context that the stock market is showing positive movements.
